

Completions Engineer

Resolute Energy Corporation has a full-time opening for a Completions Engineer located in our Denver, CO office. This position provides petroleum engineering and business support for all of our field operations. Responsibilities include:

- Prepare completion, testing and workover procedures.
- Maintain project management control over equipment installation, well completion and workovers.
- Develop and/or research new techniques and approaches related to the completion process in order to identify cost reduction opportunities.
- Prepare cost analyses, estimates and AFEs for completion of wells.
- Manage well optimization planning, completion and workover maintenance operations.

BS in Engineering and minimum 15 years industry experience required, including 3 years in a comparable position.
