

Senior Operations Engineer

Resolute Energy Corporation has a full-time opening for a Senior Operations Engineer located in our Denver, CO office, which will include travel to North Dakota and Wyoming. This position provides petroleum engineering and business support for field operations in ND and in the Big Horn Basin, WY area. Responsibilities include:

- Provide engineering for oil & gas drilling, completion, stimulation, facilities, artificial lift and production operations to maintain and/or enhance production.
- Work with Drilling/Completions, Reservoir and Geology teams to deliver new well production.
- Promptly address failed wells, preparing workover design which includes a cost estimate, procedures and economics.
- Generate and manage the lease operating expense budget.
- Generate and manage capital projects relating to re-stimulations, optimization and field infrastructure.

BS in Engineering and minimum 10 years industry experience required, including 3 years in a comparable position.
